With Coverage2go, it is always about Your Options: Having options is always a good thing. With Coverage2go from Equitable Life of Canada, you have two options.

**Option One:** You have the choice of applying for Coverage2go or Coverage2go+. Both Plan options offer comprehensive, reliable coverage and provide the same Benefits (with the exception of Air Ambulance Services). The Coverage2go+ Plan option does provide some more generous coverage levels (the Plan pays more, you pay less) and maximums (higher dollar amount of coverage). These differences are highlighted below for your reference.

**Option Two:** Once you have decided which Plan best suits your needs, you have the option to apply for either Plan with or without Dental coverage. Please note that you had to have a Dental Benefit under your previous Group Benefits Plan to apply for Coverage2go Dental coverage.

**What you need to know before exploring Your Options**
Coverage2go will only reimburse medical expenses that are not covered by the Provincial Health Care Plan where an insured person resides. In Quebec, in compliance with Régie de l’Assurance Maladie du Québec (RAMQ) legislation, Coverage2go will only reimburse prescription drug expenses not covered by RAMQ or a RAMQ equivalent plan. The term “Policy Lifetime Maximum” refers to the maximum amount that a Coverage2go Plan will reimburse each insured person for any combination of Private Duty Nursing, Medical Equipment and Supplies, Dental Accident, Paramedical Services and/or Ambulance Services. Any other use of the term “maximum” refers to the total amount that will be reimbursed for any other Benefit or Service within the stated period of time. The term “year” below refers to a period of 365 days commencing with the date a Coverage2go Plan becomes effective. Unless otherwise stated, Benefit maximums and years refer to an amount and time period that will apply to each person per year covered under a Coverage2go Plan.
